Website Advertising Banners

Members can place advertising banners on the web site including a link to an email address or website. The advertising banners offer members high exposure to Brangus queries worldwide. There are only fifteen positions available and the Brangus Association will use some of these for their own use.

Examples of some of the banners are shown to the right. Members can submit their own banners or we can construct the ad for you at a small fee. The dimensions of the banners are 273pixels wide and 229pixels high.

The banners rotate with each banner having seven seconds exposure in a rotation. With the maximum 15 banners loaded every ad would be seen within a minute and 45 seconds. The banners start rotating when the website is accessed.
